## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 6, 8, 11, 13, 15 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. For claims 1 and 11, applicant's invention combination including: "an electronic connector comprising: heat generating components, the components comprising a photo diode and laser and a housing, which is molded over the heat generating electronic components, the molded housing having a first port and a second port for receiving cables fitted with complementary plugs and the housing being made of a thermally conductive material, the thermally conductive material being a net injection moldable polymer composition and having a thermal conductivity of at least 30W/m°k, the housing is thermal communication with the heat generating electronic with heat dissipating from the heat generating electronic components through the housing " is not taught by Baumberger or suggested other prior art of record.
4. Baumberger among other reference does not disclose all limitations of claims 1 and 11, therefore does not meet claims 1 and 11 limitations which are basic to the invention, nor would inclusion of such feature be an obvious change.

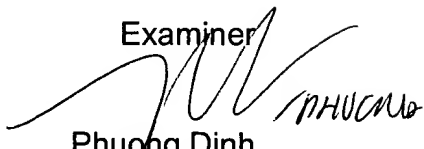

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
